Dear [REDACTED]

A few days ago an amputee patient, who is a Harvard graduate, contacted me with reference to securing a job with the Central Intelligence Group. Due to my short service with CIC, I was reluctant to push it. However, I did arrange an interview for him with my superiors who have authority to consider the employment of such people. I was surprised to learn that they were most enthusiastic about this individual, and requested that if I knew any others of his caliber they would like very much to interview them.

They are interested in intelligent and alert young men who are interested, and fairly well informed, on national affairs, preferably college graduates. They are extremely interested, because they feel that people with your handicap could be employed to the mutual advantage of yourself and CIC, and that they possible can get a higher type individual for less money due to the fact that you will already be receiving some retirement pay.

I, personally, find the work most interesting, and if you should consider this matter further, I will be happy to arrange an interview for you on your return to Washington.

I can't think off-hand of any other people we know at Walter Reed that might qualify for some of these jobs. If you know of any I would be glad to have you put them in touch with me.

Enclosed herewith are two copies of Form 57, which I suggest you accomplish and forward to me in case you are interested in pursuing this matter further. I am located in room 611, Champlain Building, 1424 K St., N.W., telephone Executive 6115, ext. 2926, and would be glad to have you contact me on your return to Washington.

Sincerely,

FOIAb3b
